This document contains information to help make your switch to Fulton easy:

- Steps to get you started.
- Direct Deposit form
- Automatic payment form
- Common automatic transactions guide

Here are five simple steps to get the most out of your new account:

Set up direct deposit.

No extra trips to the bank. Contact your payer to switch your payroll, benefit payments, or other income direct deposit into your new account.

Tip: Have your new Fulton Bank routing (031301422) and account numbers.

Enroll in Online and Mobile Banking.¹

Enroll in online banking and download our app to easily manage your accounts - check balances, pay bills,² transfer funds, and more.

Tip: Once enrolled, check out Money Management™ - an integrated part of our online experience that allows you to view and manage all your financial accounts in one secure place.

Transfer your payments.

Contact your service providers (utilities, cable, gym memberships, etc.) and provide them with your new account or debit card number so that your payments continue to be debited from your account.

Tip: See the common automatic transactions guide on page 4.

Take advantage of extras.

Activate your debit rewards card. You're automatically enrolled in our Relationship Rewards program and can view and redeem points through online banking or by visiting the site directly.

Tip: Make sure to choose "credit" at checkout and earn points every time you make a purchase of \$4 or more.³

Close your old account.

Contact your previous bank and close your old account.

Tip: Before closing, review your statements to ensure that any automatic payments, checks, or other transactions have cleared.
